VERTICAL FABRIC GARDENTM

It is just that easy to build a vertical garden. Only two steps to install a vertical fabric garden: slide in the aluminum frame and wrap up the plant root by fiber soil. No more dozens of pots and containers. Now, you have a clean and organized green wall.

Fiber Soil Wrap-up

To replace a photo with your own, just delete it and then, on the Insert tab, click Picture.

Put into the Fabric Pocket

Start with like-sized images for best results in this layout. Then right-click a photo for easy Grow and Shrink options.

Green Wall Build-up

Select a photo and then, on the Picture Tools Format tab, apply a picture style or scale photos to a specific size.
